PROJECT

❖ INTELLIGENT INTERVIEW SIMULATION SYSTEM

AI-powered intelligent interview simulation system that evaluates not just code correctness but also a candidate's problem-solving approach, communication skills, reasoning ability, and overall interview readiness. The system should simulate real interview conditions by analyzing voice explanations, coding performance, resume context, and HR responses in a unified workflow.

❖ INTELLIGENT INTERVIEW SIMULATION SYSTEM

AI-powered intelligent interview simulation system that evaluates not just code correctness but also a candidate's problem-solving approach, communication skills, reasoning ability, and overall interview readiness. The system should simulate real interview conditions by analyzing voice explanations, coding performance, resume context, and HR responses in a unified workflow.

EDUCATION

HIGH SCHOOL AND COLLEGE

Shri Rajendra High School and Junior College
12th Percentage - 69% (2024)

BACHELOR OF TECHNOLOGY, DATA SCIENCE

Suryodaya College of Engineering and Technology
Graduation - 2028
• CGPA 8.5

SKILLS

- Python Programming
 - MS Excell
 - Power BI
 - Tableau
 - Big Data
 - Data management
-

LANGUAGE

- English, Hindi , Marathi
